UN certificates are available upon request.

NON U.N. CLOSURE OPTIONS

Because of the large number of bottles and closure systems and the cost of testing and maintaining certificates, we have certified the most used closures.

A closure that hasn't been tested for the U.N. requirements can be used for nonhazardous products. Even if they have not been tested it doesn't mean that they are inferior in any ways. Ask your sales rep if you need to have the bellow closure system certified.

1/ ALUMINUM BOTTLE

2/ PP CAP WITH ALPE/PEE LINER

After filling, screw the cap to the following recommended torque: Between 27 and 44 Inch per lbs.

Recommended capping tool. Item # MCAPR02. Torque is preset at 38 inch per lbs.
Custom chuck. Item # ADAPT32

1/ ALUMINUM BOTTLE

2/ LDPE PLUG

3/ PP CAP WITH PTFE (Teflon) LINER

After filling, insert the sealing plug to full depth by pushing it down, screw the cap to the following recommended torque: Between 35 and 44 Inch per lbs.

Recommended capping tool. Item # MCAPR02. Torque is preset at 38 inch per lbs.
Custom chuck. Item # ADAPT32
